vMOX

FINANCIAL MANAGEMENT

Maximize savings, reduce risks and gain valuable insights into your mobile assets and expenses

> **vMOX hit the ground running and in the first month we cut our expenses by over two-thirds. It's been lucrative and astounding. Overall, vMOX has saved us enormous amounts of time and money. It's almost too good to be true. A real breath of fresh air.**

You can count on vMOX to control your mobile spend and streamline management activities. All behind the scenes, with no provider or device changes.

100% of organizations overspend on their mobility, in terms of both time and money. vMOX takes a proactive, technology-led approach to financial management, continually monitoring, troubleshooting and scrutinizing every aspect of your environment to identify cost-reduction opportunities. We help you buy exactly what you need — and no more. With our automated workflows, bidirectional integrations and granular reporting, managing your mobile invoices, devices and costs is a hassle-free experience.

Auditing and Fraud Detection
Ensure billing accuracy and detect anomalies before they become risks with proactive monitoring and regular audits.

Cost Optimization
Leverage patented technology, automated processes and specialized knowledge to find the lowest possible costs for your mobile environment at every given moment.

IoT Management
Easily manage, analyze and expand your IoT device fleet - from smartphones to patient monitoring devices and fleet tracking devices - and their related costs on a single platform.

Inventory Management
Centralize management of your devices, regardless of provider, platform, geography or type, with more detail and accuracy.

Invoice / Contract Management and Bill Pay
Consolidate your invoices into a single system and digitize for faster handling, reduced errors and greater detail. Utilize Bill Pay for complete invoice lifecycle processing and payment remittance to your wireless carrier.

Reporting and Analytics
Put your data to work for improved visibility and control. Get detailed, near real-time insights into all aspects of your mobile environment.

Usage Management
Continually align your usage with the most appropriate voice, data and feature plans while simultaneously balancing pools.

WHY VMOX

Declare victory over modern mobility challenges.

The world and the way we work has changed, directly impacting how you manage your corporate mobile assets, expenses and services. As the complexity of enterprise mobility grows, you need a partner you can count on to deliver optimal results.

vMOX is a managed services provider that drives value throughout the entire mobile device lifecycle, helping your enterprise achieve greater outcomes with less expense, effort, risk and waste.

Continual Optimization at Each Lifecycle Stage
